

PARTHAPRATIM JANA

PHARMACOVIGILANCE & DRUG SAFETY SURVEILLANCE | LIFE SCIENCES GRADUATE

Kolkata, West Bengal | +91 6370271705 | parthapratim1436@gmail.com | [Linkedin](#)

PROFESSIONAL SUMMARY

B.Pharm graduate with focused training in Pharmacovigilance & Drug Safety Surveillance — ICSR case processing, MedDRA five-level coding, causality assessment (WHO-UMC, Naranjo), and seriousness/severity classification. Exposure to Oracle Argus Safety workflows and ICH-GCP, plus hands-on safety data analysis on a real adverse-event dataset. Comfortable following detailed instructions under supervision, with strong attention to detail as an individual contributor within a team.

KEY SKILLS

Pharmacovigilance & Drug Safety: ICSR Case Identification & Data Entry, Case Processing & Follow-up, MedDRA Coding (5-level hierarchy), Causality Assessment (WHO-UMC, Naranjo), Seriousness/Severity Classification, Narrative Writing, Signal Detection Concepts, GVP Modules, Regulatory Reporting Timelines (7/15/90-day), Product/Safety Database Monitoring, Spontaneous Reporting Review

Systems & Regulatory: Oracle Argus Safety (theoretical), Safety Database Concepts, ICH-GCP, GVP, Data Validation & Consistency, Documentation, SOP Adherence, Excel, SQL, Power BI

Core Competencies: Attention to Detail, Problem Solving within Guidelines/Precedent, Ability to Work Under Supervision, Individual Contributor within a Team, Organization & Time Management, Written & Verbal Communication, Willingness to Work Rotational Shifts

PROFESSIONAL CERTIFICATION

Institute of Advanced Skill Development Jul 2026 - Present

- Trained in ICSR case identification, data entry, and case processing, including MedDRA five-level coding and safety database documentation practices.
- Studied causality assessment (WHO-UMC, Naranjo), seriousness/severity classification, and adverse-event narrative writing aligned with ICH-GCP and global PV requirements.
- Practiced safety data validation and consistency checks to support accurate case follow-up and regulatory reporting timelines (7/15/90-day).

EDUCATION

Bachelor of Pharmacy (B.Pharm) 2025

RR College of Pharmacy | CGPA: 7.3

PROJECT

Kymriah Safety Data Analysis & Interactive Power BI Dashboard

Pharmacovigilance | Product Safety Monitoring | Power BI

- Analyzed and structured spontaneous adverse-event reporting data for Kymriah (tisagenlecleucel), reviewing case-level details including seriousness, outcomes, and patient characteristics — applying causality-assessment thinking to distinguish reporting frequency from causal association, including for Cytokine Release Syndrome (CRS).
- Performed data cleaning, validation, and consistency checks to prepare case-level data for reliable safety analysis and reporting, mirroring core ICSR data-quality principles.
- Built an interactive Power BI dashboard with KPIs, DAX measures, and drill-downs to surface adverse-event trends and reporting patterns for stakeholder review.

Green Synthesis of a Polyherbal Nanosuspension to Treat Depression Jul 2025 - Nov 2025

- Recorded and interpreted experimental data while performing safety assessment throughout the study.
- Evaluated formulation characteristics (solubility, bioavailability, particle morphology) via structured data review.

WORK EXPERIENCE

Pharmacy Trainee | Apollo Pharmacy Feb 2026 - Jun 2026

- Performed accurate data entry and record verification for medication and patient-related documentation, maintaining data completeness, consistency, and accuracy under pharmacist supervision — directly transferable to ICSR data-entry discipline.
- Applied attention to detail and SOP/process adherence in a regulated healthcare environment while managing multiple, time-sensitive tasks.

INDUSTRIAL TRAINING

Micro Lab | Industrial Training 1 Month

- Gained practical exposure to tablet and capsule manufacturing processes in a regulated pharmaceutical production environment.
- Observed Quality Control (QC) and Quality Assurance (QA) practices, building foundational understanding of process adherence and documentation standards.

ADDITIONAL INFORMATION

- Languages: English | Hindi | Bengali. Open to rotational shift work.
